

Guidelines for Poster Presentation

Future Security, September 7th – 9th 2010, Berlin

Dimensions

- Bulletin boards, size DIN A0 (upright format) 841 mm (W) * 1189 mm (H), will be provided.
- It is absolutely necessary not to exceed the dimensions mentioned above (a little smaller is no problem), otherwise the poster will not fit properly onto the bulletin board. Trimming on-site might be challenging. Referring to this, no assistance can be provided by the Future Security organizing committee.
- The posters will be mounted using spring loaded clamps in combination with a thick protective foil to ensure proper fixation, protection and flatness of your poster.
- The use of pins, adhesive tape, velcro strips, etc. is neither necessary nor allowed.

The posters will be displayed at all times during the conference

**Bulletin boards provided
by Future Security**
